Unit 11 Reflection

Unit 11 is considered one of the most critical units. The focus is on professional development and consideration of the e-portfolio submitted in Unit 12.

Professional development is a process whereby we can gain professional identity and transferable metacognition skills (Olstad et al., 2022).

With the utilisation of the e-portfolio, we can provide an overview of achievements from outcomes and evaluation of skills for progression. This benefit can support my knowledge and skills and improve my professional practice. In this unit, I undertook a SWOT analysis (Puyt et al., 2020) to evaluate current performance and set future targets in an action plan.
