

## RMPP Weekly Reflections

### Unit 1 Reflection

The learning during Unit 1 focused on different methods of reasoning and understanding why ethics are essential. I learned that project planning time must consider guiding association principles such as the British Computer Society (BCS) Code of Conduct (British Computing Society, 2022) to provide ethical practice.

In light of upcoming research and professional practices, this was an excellent opportunity to fully grasp the concept that privacy plays a critical role in guiding researchers to perform ethical considerations and reassuring the public of the crucial responsibilities of computing professionals responsibilities to the public (Stahl et al., 2016).

British Computing Society. (2022). Code of Conduct For BCS Members. Available from: <https://www.bcs.org/media/2211/bcs-code-of-conduct.pdf> [Accessed 28 January 2023].
