

## Feedback for RRMP Literature Review Summative

Tutor completing summative feedback: Karen Outram	Student number: 296344
Details of any extensions etc:	Submission Attempt: First submission Second submission

Criteria and weighting	Level	Comments
<b>Knowledge and understanding of the topic/ issues under consideration (30%)</b> To provide an overview of current knowledge on the chosen topic	Very Good	Very good knowledge and understanding of the topic that reflects an appropriate focused approach to answering the assignment question. Whilst the content is relatively evenly paced, and planning has obviously gone into developing the summative, a little more dynamic discussion could have occurred to give the assignment more pace and depth of research in places, overall.
<b>Criticality (30%)</b> To highlight similar and contrasting views on your chosen topic	Excellent	Generally, excellent criticality with strong links between theory and practice. There is discussion and comparison of fact through the Literature Review and these are mostly underpinned with theoretical discussions through the body of the summative.
<b>Use of relevant sources (20%)</b> To demonstrate an awareness of relevant, current literature	Very Good	Generally, very good use of relevant resources. Citation was reasonably regularly used, but do bear in mind for future summative that where a fact/research is stated citation should take place. Build upon your current approach for future summative.
<b>Structure and Presentation (as detailed in the assessment guidance) (10%)</b> To showcase your research and writing skills.	Excellent	Overall excellent structure and presentation regarding the document. Good to see a cover and contents page, with mostly consistent paragraph sizes. Please do take this approach forward for future summative. One small comment, all of your research references can be directly aligned to the left-hand margin and so no need to indent these. Also make clear distinct space between each reference in the list.
<b>Academic integrity</b>	Very Good	The assignment is within word count, with the topic taken from the list provided by the University of Essex which is

<b>(10%)</b> To showcase your research and writing skills.		good practice. When using acronyms such as IoT, in the first instance write the acronym out in full words and thereafter as initials, as you must assume readers of your assignment have no prior knowledge. This approach makes your content accessible to anyone who reads it. Generally, there is a steady consistent tone to your academic writing style, which is excellent in some places and very good in others. Ensure that application of citation is completely consistent all the way through your summative. A very good outcome overall.
Overall		
<b><u>Positives:</u></b> <ul style="list-style-type: none"><li>• Generally, excellent criticality</li><li>• With excellent structure and presentation to the assignment</li><li>• With a very good grade overall</li></ul>		
<b><u>Points for development:</u></b> <ul style="list-style-type: none"><li>• Cite at every opportunity</li><li>• Work on holistically evenly paced content</li><li>• Continue to develop your research for future summative</li></ul>
