

RMPP Weekly Reflections

Unit 8 Reflection

Unit 8 was positive, with helpful feedback on the recent summative Literature Review assignment. A particular strength was criticality which again was pleasing as I had targeted this area from previous modules, and holistic evenly-paced content will be an area to focus on over the subsequent units.

During the discussion forum, I gained knowledge in fresh perspectives from peers, particularly understanding deception in advertising (Khan, 2023) and that research work carried out is obligated to be made public (Wang, 2023), which further strengthens to argument for valid and reliable practice. It was disappointing again that more course participants did not engage during the allocated time frame.
