

THF Unit 4 Feedback Peer Review

Tutor feedback:

A well thought out piece of feedback that highlights some interesting elements of each of the submissions. The references are good and show some diversity of thought, and the use of peer reviewed sources.

I would suggest that you could go a little further on the critical analysis. For example, if you agreed with something why did you agree and if not what do you think that they could do to bring things more up to standard? I think there is the beginnings of a very good review in there I would just recommend a little more in depth on the critical analysis, which I appreciate is tough in a limited word count.
