

THF Unit 2 Formative Feedback Individual Essay Outline

Tutor feedback:

A good overview of the essay, with three interesting human factors drawn out. I think that you might need to look for some more modern references (or peer reviewed sources) rather than some that you have listed (e.g. Colwill 2009 is quite out of date!), the same is probably true of the Human Error section.

You haven't really covered the actors in your second section, so this could be worth thinking about.
