

RMPP Weekly Reflections

Unit 3 Reflection

Unit 3 supported my understanding in research design and research methods. The opportunity to use the knowledge gain in deciding the research method or data collection method for future projectives was helpful for longer term planning.

Initial thoughts are considering the mixed method approach (Office for Health Improvement and Disparities, 2020) for a future potential capstone project to provide breadth and depth of research. The peer responses in the discussion forum allowed me to provide a balanced summary of perspectives whilst gaining a more indepth picture of the ethics involved in machine learning

.

Office for Health Improvement and Disparities. (2020). Mixed methods study.
